

Please amend FIGs. 1 and 2 as indicated.

In the specification:

Please amend the paragraph found on Page 32 line 22 to Page 33, line 7 as follows:

al It will be appreciated by those skilled in the art that the communications interface 186 will preferably be configured to have secured communications with doctor's offices. There are a variety of methods for creating secured lines ~~190~~ 188, such as those commonly used with wide-area networks. By limiting access to the communications interface 186, the control portion 116 prevents non-physicians from improperly obtaining medications by providing false information to the computer 172.
